

Confederated Tribes and Bands  
of the Yakama Nation

Established by the  
Treaty of June 9, 1855

March 12, 2014

Tribal Solid Waste Advisory Network  
Kami Snowden, Executive Director  
PO Box 505  
Cheney, WA 99004

Dear Mrs. Snowden,

RE: YAKAMA NATION LETTER OF COMMITMENT FOR IGAP

This is a letter of commitment from Confederated Tribes and Bands of the Yakama Nation in support of the Tribal Solid Waste Advisory Network. This commitment reaffirms our participation and our tribal Resolution. We believe our connection with the Tribal Solid Waste Advisory Network has supported our tribal programs and progress.

The Confederated Tribes and Bands of the Yakama Nation has been a member of the Tribal Solid Waste Advisory Network since our initial resolution. Our tribe continues to commit to attending meetings and trainings as they offered throughout the year when there are not other scheduling conflicts. We will continue to work with staff of the Tribal Solid Waste Advisory Network especially for technical assistance. The Confederated Tribes and Bands of the Yakama Nation seeks to maximize it's opportunities through collaborative efforts with other Tribes to develop programs and address environmental needs and concerns in Indian County.

The Confederated Tribes and Bands of the Yakama Nation considers programs and policies protecting its citizens, environment and natural resources a priority. It is our duty to protect and manage the lands and resources of the tribe. The collaboration with the Tribal Solid Waste Advisory Network is one of the ways we will continue to support our effort to sustain our lands for future generations.

Respectfully,

Derald Ortloff, Manager  
Yakama Nation Facility Management
